CONDITION OF THE MARKETS

THEO. P. HAUGHEY, Pres't. H. LATHAM, Cash.

Wheat Opens Lower, Advances Slightly and Closes at Best Prices of the Day.

Corn Quiet, the Range of Prices Being Very Narrow-Oats Strong and a Trifle Higher -Provisions Weak and Slightly Lower.

MONEY, BONDS AND STOCKS.

A Reaction in the New York Market, Most of the Active List Being Lower.

NEW YORK, Aug. 9. - Money on call was easy at 101 per cent.

Prime mercantile paper, 41 264 per cent. Sterling exchange was dull but steady at \$4.85 for sixty day bills, and \$4.872 for demand. The total sales of stocks to-day were 250,886 shares, including the following: Canada Southero, 4,750; Delaware, Lackswanna & Westero, 32,500; Erie, 14,250; Lake Shore, 6,717; Louisville & Nashville, 3,465; Missouri Pacific, 10,668; New Jersey Central, 21,785; Northern Pacific, preferred, 5.015; Reading, 39,710; St. Paul, 14,-210; Texas Pacific, 6.858; Union Pacific, 15,878;

Western Union, 16,375. The stock market again showed a reactionary tendency to-day, and for the first time in many days the general list is lower than on the preceding day. There were heavy realizing sales throughout the day and some hammering by the traders, but the demand for stocks continued large, and the impression made upon prices was small. Special stocks, however, were remarkably strong, notwithstanding the general downward tendency, and chief among these were Jersey Central, Lake Erie & Western preferred and Mahoning Coal. The first named stock was by all odds the great feature of the day, and it at once assumed the lead of the market at the opening of business. Its sales for the day exceeded those of the previous five days put together, and its extreme advance was over 2 per cent. The board room rumors in regard to the stock wer that the Reading party had resolved to put up the stock, having secured the holdings of the Lehigh Valley, and that a dividend was to be paid shortly. The president of the compan said the road was earning a dividend, but tha there had been no action taken in the premise as yet. Other coalers were all strong and active but came into no such prominence as Jersey and the Gould stocks fairly disputed the first po sition in the market with them. Missouri Pacifi made a fine spurt in the forenoon, but lost the advance later, and Western Union was firm throughout. The last stock to attract attention was Lake Erie & Western preferred, but its ne gain was something less than a point. Orego Short line was prominently strong, and among the specialties, Mahoning Coal was very conspicuous, with a rise of 5 per cent. London and commission houses absorbed most of the offerings, while the realizing was almost entirely local. The market was very active at the opening, and continued so for the first hour, when nearly half of the total sales were made. First prices were generally strong, the advances extending to } per cent. in Jersey Central. The coal stocks started off with the lead, and were strong, while the rest of the list displayed considerable weakness, and declines extending to per cent were established. The Gould stocks next came into prominence, and Missouri Pacific led a second advance, with Western Union close up, and the general list sympathized to a certain.extent, recovering the losses of the first honr. The dealings then became restricted, and fluctuations were confined to the narrowest limits, except in a few special stocks, though a firm tone marked the trading until late in the last bour, when the selling again sagged the list off,

The railroad bond market was again active and strong, the sales of all issues aggregating \$1.970,500, out of which Atlanta & Pacific incomes furnished \$492,000; Texas Pacific seconds, \$200,000, and Fort Worth & Denver firsts, \$148,-000. The activity was nearly all in the first hour, however, over \$1,000,000 being traded in in that time. The market was strong throughout, and, while most of the changes are for fractional amounts, Alton & Terre Haute firsts rose 2, to 114.

and the close was quiet but generally heavy.

Almost the entire active list is lower this even-

ing, but the few advances are for important

Government bonds were dull and steady. State bonds were dull and steady. Closing

CHICAGO, Aug. 9.-There was a European weather market in wheat to-day. The price of September opened 2c under yesterday, at 821c, and after a raily to 82% went off to the lowest point of the day, 82tc. or le under last night. Early cables gave clearing weather and generally bearish reports, and buyers were frightened. It was after noon when the closing cables helped prices by again unsettling the weather on the other side, and the price of September was put up to 83c for the first time during the session. The talk about the cold weather in the Northwest was also revived. Wheat closed firm at the best prices of the day, which, however, were fractionally lower than yesterday. Corn had another quiet day. The range for the session was not beyond ic, and the close was ic under yesterday. Oats were strong, with narrow fluctuations and with some improvement shown for near deliveries. Hogs were lower at the yards this morning This created a weaker feeling among the holders of provisions, and they began to sell freely. A broker took hold of pork at the opening and bid prices up 20c, to \$14.15 for September; changing his tactice, he began selling and filled the crowd up, but in so doing broke the price to \$14.05, when selling on stop orders caused a drop to \$13.90, and last sales were at \$13.921, a net drop from yesterday's close of 25c. In short-ribs a fair business was transacted, the chief feature of the market being the purchase of 3,000,000 pounds by an operator who headed the selling movement yesterday. September sold at 8 10 \$\alpha\$ 8.25c, and closed at 8.20c, a decline of .02\frac{1}{2}c. Lard closed .072c lower, at 8.772c for September. A cable from Paris said the French Chamber of Deputies had imposed a tax of 52e per 100 pounds on adulterated lard. The leading futures ranged as follows: Onening Highest Lowest Clasing.

A Heavy Corn Crop Makes the Business Outlook Favorable and Tones Up Prices. INDIANAPOLIS, Aug. 9. In prices there were no important changes to-

day, firmness being a leading characteristic in all departments of trade. In commenting on the business outlook the New York Shipping List says: "Present indications point to a corn crop that will reach, if it does not exceed 2,000,-000,000 bushels of superior quality, but it will be several weeks before the safety of this crop has become assured, its development depending upon the continuance of hot growing weather and still later on the absence of frost. An unusually heavy hay crop has been already secured, while the important food crops, vegetables and fruit, promise the most encouraging results. In a word, the agricultural prosperity of the country appears to be highly satisfactory and the risks of probable damage are daily decreasing, and this fact is an important feature in developing mercantile activity, while speculation is already beginning to discount the future by buying while prices are low in expectation of the advance that will come with the revival of business that is gradually and steadily approaching. Cable vices from Europe continue to reflect unfavorable crop conditions upon the continent as well as in Great Britain, and these countries will be large buyers of breadstuffs in this market, and thereby provide a good outlet for our exportable surplus, especially as in the matter of wheat neither India nor Australia will be in a position to export any more this year than last." Dry goods men to-day were fairly busy, and mail orders were good for August. From this on a lively trade is looked for in this line. Grocers were quite busy. Sugars took on a firmer tone to-day, while coffees East were hardly as

firm as on Wednesday. Other staple groceries retain their strong tone, and the distribution is fully up to the usual August average. The provision market is hardly as firm as in the early part of the week, but prices are unchanged. The movement in a jobbing way is brisk. The bide market is active for the time of year, but prices show no signs of improvement. In the produce markets there is a good deal doing. Apples and peaches, notwithstanding the large receipts, remain firm in price, and are meeting with good sale. Vegetables of all kinds coming in freely; prices weak. Butter, eggs and poultry all firm at quotations. Receipts of each are moderate for the season of the year. It was an off day in the local market, and the

bidding on 'Change was tame. The Indianapo lis Market Report says: "The movement of grain shows a decided falling off. Inspections for the past two days amount to 135 cars, as against 181 cars for the preceding period. Wheat receipts are smaller, but dealers report that offerings continue free. The tone of the market is hardly equal to what it was at time of last report. Millers, though still in the market. No. 3 red at 76 280c, 78c being the current price for milling demand. Rejected, average sam-ples brought from 70c to 74c, poor sold as low as 65c, and choice as high as 77tc. Unmerchantable ranged from 70c down to 56c, the average sample bringing about 60 @63c. Corn offerings are fairly free. No. 1 white sold at 50c to arrive; No. 2 white offered at 49c to arrive; No. 2 mixed sold at 44 c. There is little doing in oats. New No. 2 white saleable at 28c; new No. 2 mixed at 24c. The quality of arrivals is poor, and the trade are, therefore, afraid to sell any quantity for future deliveries on account of grading. Old hay is scarce and in good demand. New finds ready sale at \$13 \$2 13.50 for No. 1 timothy." Track bids to-day ruled as follows:

Wheat-No. 2 red 83 August.... No. 2 white..... White mixed..... No. 2 yellow..... No. 2 mixed..... No 3 mixed..... Sound ear, mixed..... Sound ear, yellow Rejected mixed. 1912 Unmerchantable.....
